ViyATA

THE COMPLETE GFC KIT

India's first and only International Autologous
Acellular, complete GFC Kit

Why choose GFC?

Minimal to no Pain & Inflammation

3 sittings one month apart

Gamma Sterile Tubes

Can be stored for 4-8 hrs

Platelets get activated before centrifugation

90%

Patients showed results in 3 sessions

Most of them showed **72.67%** increase in hair count & **55%** increase in hair thickness.

Ease of doing procedure:

1

HARVEST

Collection of 16ml blood in 2 Tubes

2

ACTIVATE

Invert the tubes 3-4 times and keep it still for 30 mins for activating the platelets and release of growth factors

3

SEPARATE

Growth Factors get separated in-vitro by centrifugation at 3500 rpm for 10 mins.

4

INJECT

GFC is ready to be injected

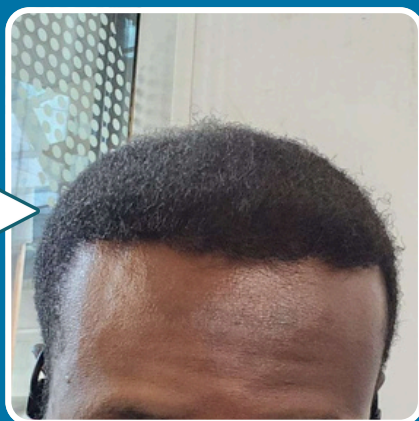

Viyata the Complete GFC Kit for Hair Growth Therapy

Ease of doing procedure:

1

HARVEST

Collection of 16ml blood in 2 Tubes

2

ACTIVATE

Invert the tubes 3-4 times and keep it still for 30 mins for activating the platelets and release of growth factors

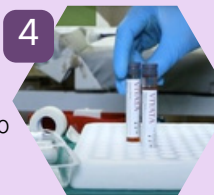

3

SEPARATE

Growth Factors get separated in-vitro by centrifugation at 3500 rpm for 10 mins.

4

INJECT

GFC is ready to be injected

Viyata the Complete GFC Kit for Skin Rejuvenation is used for the treatment of:

Melasma

GFC therapy aims to promote skin regeneration and repair, potentially improving the appearance of melasma.

Acne Scars

Stimulates collagen production and enhances skin texture to improve acne scars.

Skin Tightening

Growth factors improve skin elasticity and firmness. It enhances youthfulness of skin.

Wrinkles & Fine Lines

Growth factors play a key role in maintaining skin elasticity and reducing appearance of wrinkles and fine lines.
